Packing and Shipping:

Packaging and Shipping

Bottling tomato sauce requires careful packaging to ensure it is not contaminated. The bottles should be clean, and should be filled with the sauce in a hygienic environment. The bottles should then be sealed securely with a tamper-proof lid. The bottles should be packed in cardboard boxes with protective padding, such as bubble wrap, to ensure they are not damaged during shipping.

The boxes should then be labeled with the correct product name, weight, and ingredients. The delivery address should also be clearly marked on the box. The boxes should then be shipped to the appropriate address using a reliable shipping carrier.
